

Wolfram Industrie  
**TUNGSTEN TECHNOLOGY**  
Germany

There are many colours...  
... but only one turquoise !

**WS2 WITSTAR® - the original**

[www.tungsten-technology.com](http://www.tungsten-technology.com)

### Agenda

- Requirements
- Radiation exposure
- Reliable arc striking
- Service life
- High arc quality
- Low power consumption
- Low burn-off rate
- Quality "Made in Germany" for 100 years
- Compliance with standards
- Summary

### WOLFRAM INDUSTRIE®

Advantages of WITSTAR®

### TIG Electrode Requirements

- Good ignition and re-ignition capability
- Low burn-off rate
- Small deformation of electrode tip
- High arc stability
- Sustainable current
- Flexible application

All requirements are surpassed by WS2® WITSTAR® by far.
